2019-20 Project Charter

**PROJECT NAME:** Library website redesign: Content exploration, UX research

**PROJECT MANAGER:** Tiffany Grandstaff

**TEAM MEMBERS:** Nicole Brown, Chan Li, Jesse Loesberg, Lisa Ngo, Library leadership, Library IT, many staff from across units, UX research firm

**PROJECT SPONSOR:** Tiffany Grandstaff

---

**PURPOSE & GOALS**

Describe the current challenges and opportunities that the project addresses. What core issue will be addressed by the project? What goals will be achieved by the project? What benefits will the project deliver and which constituencies will receive these benefits?

**Goal of project at large:** Improve how scholars access resources by reevaluating the user experience of the Library’s public website.

**Benefits the project will deliver:** We intend to rethink the public-facing components of the Library website in order to:

- Improve the user experience
- Make our information and resources easier to find
- Undergo a content refresh to make sure that information is consistent and accurate
- Deploy a visual redesign that reflects the Library and campus brand
- Continue to improve our ADA compliance standards

**Intended audiences:** Once redesigned, the Library website will offer an enhanced experience for the UC Berkeley campus community and scholars across the globe who depend on our services.

**Goals of the content exploration, UX research phases:** Gain a better understanding of how the Library can improve its content delivery in service to our users. Use this data as a guide for creating a content matrix and new site map.

---

**ALIGNMENTS WITH STRATEGIC GOALS**

Describe how the project aligns with the strategic priorities of the Library.

The project fulfills Library Strategic Direction 1 (improve how scholars access resources):

“We will … develop user-centered tools that connect people with resources at any time and from anywhere.”

And Strategic Direction 4 (tell our story to build community and cultivate relationships):

“We will develop communications and outreach globally to improve our service delivery, strengthen our contributions to the university’s mission, and attract financial support to tackle our priorities.”
2019-20 PROJECT SCOPE
(Describe the scope of the project during 2019-20. The scope defines the boundaries where the project begins and ends. The scope describes what will be delivered, including where, when, and how. It describes the services, functions, systems, solutions, or tangible products to be created during the course of the project, as well as the business process impacts.)

2019-20 scope:

- Content discussions with Library staff.
- UX-related user feedback process in partnership with consultant.
- Development of content matrix.
- Development of site map and complete project plan.
- Beginning stages of thinking about the design and the content.
- Close coordination with Library IT.
- Consultation and communication with Library leadership, staff.

2019-20 PROJECT DELIVERABLES
(List what will be delivered, and when, and describe what success looks like for the project.)
